Boundary Survey

Are you building a fence or shed? Maybe you are looking to start that backyard oasis. A boundary survey provides a clear understanding of your property lines. This ensures the project is on your property and reduces the likelihood of future disputes.

This detailed process takes time! The team at All County and Associates starts by obtaining electronic records. Once on-site, we look for markers that bound the property. We take detail measurements with electronic survey equipment. Finally, we set any missing markers using a 1/2" diameter steel pin. The goal is to validate the site conditions versus the researched documentation.

Full-Service Civil Engineering Firm

Civil/Site Engineering | Construction Management | Environmental Services |
Land Surveying | Sewage Disposal Systems | Wetland Delineation
